Registration requirements for citizens of EU/EFTA states in Switzerland

In accordance with the valid provisions and protocols on the free movement of persons that Switzerland signed with the European Union (EU) and the European Free Trade Association (EFTA), you are legally required to register at the residents' registration office of your place of residence within 14 days of moving to Switzerland.

For residency in the city of Zurich, an appointment must be made in good time at the residents' registration office of the city of Zurich (City Hall, [Link](#)). For other municipalities, we ask you to clarify the procedure directly with your municipality.

Professors with EU/EFTA citizenship can apply directly at the residents' registration office for a settlement permit C for themselves and their families (spouse and children under twelve years). Please take the appointment decision by the Board of the University, respectively by the Executive Board of the University, and the employment order ("Verfügung der Anstellung") from the Executive Board of the University to the residents' registration office.
